COVID-19

During these challenging times, our priority continues to be the well-being of all our visitors, employees and their families. We would like to reassure everyone that we are taking all necessary steps to follow the guidance given by the government and the World Health Organisation at this time.

VISITORS

We are currently open as usual but are operating a restricted movement plan for all visitors on site. If you need to visit us at Agriweld, please report to reception, where you will be guided from there. As much as we love to meet and chat with our visitors, for the protection of all concerned, if you are able to deal with your enquiry over the telephone or via email, we would be grateful if you could make this your preferred method of communication with us at present.

ORDERS AND DELIVERIES

We are committed to getting your products and orders delivered to you on schedule and our website, workshops and offices remain open with dispatches and collections currently running as normal. However, we may experience some delays with receiving certain supplies during this time and ask that you bear with us if this affects your order. We will update all customers who this applies to although the majority of our lead times still remain accurate.

Please be assured that we are continually working to make sure that we are operating in the safest way possible.

Finally, we are aware that the advice by the government and World Health Organisation may change and we may also need to implement these changes in line with their new guidelines. However, as we continue to navigate these challenging and uncertain times, we will endeavour to keep you all updated.

Thank you for your continued support from all the team at Agriweld Ltd
